## PROFILE

## EDUCATION & TRAINING

- BSc (Eng) PrEng University of the Witwatersrand

## PROFESSIONAL MEMBERSHIP / REGISTRATION / AFFILIATIONS

- MSAICE
- FSAIMM

## BACKGROUND SUMMARY / PROFESSIONAL EXPERIENCE

I possess extensive experience in commercial aspects (planning, estimating and change valuation) of various mining engineering and heavy civil (especially underground) projects, mainly in South and sub-Saharan Africa. I have a successful estimating record in planning at both Tender and Contract stages and conducting evaluation of change events during contract execution. I have recently successfully prepared and participated in largely time related claims and/or compensation event negotiations for two major shaft sinking projects, one in Chile and one in South Africa. Prior to this, I carried out compensation event analysis (with the assistance of specialist Forensic Planners contracted through Hill International) for Eskom (the South African Parastatal Energy Producer) on the Ingula Pumped Storage Scheme in respect of both the Main Civil and M&E Works contracts.

### **Professional Experience:**

- Site Engineer - Geo
- Senior Estimator - SM Goldstein
- Resident Engineer – Transnet
- Commercial Manager - Basil Read Mining/Samat Mining

- Commercial Director - Basil Read Mining/Samat Mining

## MAJOR ACHIEVEMENTS / ACCOMPLISHMENTS

- Successfully prepared and participated in largely time related claims and/or compensation event negotiations for two major shaft sinking projects, one in Chile and one in South Africa
- Carried out compensation event analysis (with the assistance of specialist Forensic Planners contracted through Hill International) for Eskom (the South African Parastatal Energy Producer) on the Ingula Pumped Storage Scheme in respect of both the Main Civil and M&E Works contractsKD ~ Forsmark ~ Sweden Nuclear waste storage system access shaft
- My commercial experience and report writing skills have enabled me to participate in the preparation of a number of Mine Feasibility Studies either as an author or in a review capacity

## RELATED EXPERIENCE

- Site Engineer for Geo. Wimpey on a town redevelopment project in Northampton
- LTA Civil Engineering on dam, coal-fired and pumped storage power station projects

### Examples below

- Ongopolo Asis Far West Exploration Shaft ~ from Greenfields to commissioning for production, including co-ordinating of design, equipment selection and construction.
- Impala 12 North Shaft ~ Sinking and equipping of a 8.25 metre diameter brattice wall shaft
- Mopani Copper Mines Plc ~ Study to upgrade rock hoisting capacity by 60.7% at the SOB Shaft

## INDUSTRY RELATED EXPERIENCE

- Civil Projects
- Engineering Projects
- Commercial management
- Estimating
- Quantity Surveying
