## BACKGROUND SUMMARY / PROFESSIONAL EXPERIENCE

Pieter believes in sustainable business performance through applying formal enterprise-wide risk management practice and played a major part in the turn-around of several significant businesses by utilising Six Sigma methodologies. His leadership skills, management strategies and holistic approach to the turnaround of technically challenging and complex business and projects are sought after in the industry.

Amongst others, Pieter headed up an R1 billion division of a leading mining services company in South Africa and also developed, implemented and maintained an Enterprise Risk Management strategy, policy and framework for a R5 billion listed multinational company.

Pieter values the importance of people to achieve business strategies and objectives and supports the development of human capital by investing in continued coaching, mentoring and training initiatives.

**Professional Experience:**

- Business Partner – Distinctive Choice;
- Managing Director - Fraser Alexander Bulk Mech;
- Non-Executive Director - Close-Up Opencast Mining Company;
- Group Risk Manager – Master Drilling;
- Risk Manager – Manganese – BHP Billiton;
- Laboratory Head – National Cooperative Dairies (Clover SA);
- Non-Executive Director- New Life Church & Full Gospel Church;
- Managing Member-Board of Trustees - Fraser Alexander Retirement Fund;

## MAJOR ACHIEVEMENTS / ACCOMPLISHMENTS
